Dear Dr. LaRain

*I cannot express my appreciation enough to you
both for the amazing difference you have made in
my son's life. How fortunate we were that we
found ourselves first of all in Atlanta, then from a
conversation I had with a friend that his online
research found your clinic and between us we
convinced my son, "T", to at least have one
session of hypnotherapy with you. That could very
well be the best decision "T" has made in his life
and I will be forever grateful for his intelligence,
your professional therapy and your hand of
friendship to my beautiful boy. I knew the
morning I met you that I was leaving my son in
very good care and I had peace of mind on my
long flight home to Australia.*

*None of us expected "T" to experience such a
huge shift in energy in such a short space of time.
We do realize it isn't an instant "cure," but he now
knows that there is help of a real and practical
nature available to him when he needs to "top
up". I do hope he stays in touch with you long
after he "needs" your professional help, as I do
believe you may very well have saved his life,
definitely his emotional one if not also the
physical. Thank you from a mother's heart.
Thank you.*

***Kindest regards
Karaleen M.
